[LA35-1-7305b; FRL-5928-3]

**Approval and Promulgation of Air Quality Implementation Plans, Louisiana; Reasonable Available Control Technology for Emissions of Volatile Organic Compounds**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** In this action, the EPA proposes to conditionally approve in part, and fully approving in part, revisions to the Louisiana State Implementation Plan (SIP). The revisions incorporate regulations to control Volatile Organic Compound emissions from major stationary sources by means of Reasonable Available Control Technology. The major stationary source category controlled by the conditionally approved regulation is batch processes. The major stationary source categories controlled by the fully approved regulations are Synthetic Organic Chemical Manufacturing Industry (SOCMI) reactors, SOCMI distillation, and industrial cleanup solvents. The intended effect of these rules is to reduce VOC emissions into the ambient air and thereby reduce ground-level ozone concentrations.

In the Rules and Regulations Section of this **Federal Register**, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision and anticipates no adverse comments. The rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn, and all public comments received during the 30-day comment period set forth below will be addressed in a subsequent final rule based on this proposed rule. Any

parties interested in commenting on this action should do so at this time.

**DATES:** Comments on this proposed rule must be received in writing by January 2, 1998.

**ADDRESSES:** Written comments on this action should be addressed to Mr. Thomas Diggs, Chief, Air Planning Section, at the EPA Region 6 Office listed below. Copies of the documents relevant to this proposed rule are available for public inspection during normal business hours at the following locations. Anyone wanting to examine these documents should make an appointment with the appropriate office at least two working days in advance. Environmental Protection Agency, Region 6, Air Planning Section (6PD-L), Multimedia Planning and Permitting Division, 1445 Ross Avenue, Suite 700, Dallas, Texas 75202-2733.

Air Quality Division, Louisiana Department of Environmental Quality, 7290 Bluebonnet Boulevard, Baton Rouge, Louisiana 70810.

**FOR FURTHER INFORMATION CONTACT:**

Eaton R. Weiler, of the EPA Region 6 Air Planning Section at the above address, telephone (214) 665-2174.

**SUPPLEMENTARY INFORMATION:** See the information provided in the direct final action of the same title which is published in the Rules and Regulations section of this **Federal Register**.

**ENVIRONMENTAL PROTECTION AGENCY****40 CFR Part 81**

[AK 19-1707; FRL-5923-8]

**Clean Air Act Reclassification; Anchorage, Alaska, Carbon Monoxide Nonattainment Area**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** This action proposes to find that the Municipality of Anchorage,

Alaska, carbon monoxide (CO) nonattainment area has not attained the CO national ambient air quality standards (NAAQS) under the Clean Air Act (CAA). The CO nonattainment occurred after Anchorage received a one year extension from the mandated attainment date of December 31, 1995 for moderate nonattainment areas to December 31, 1996. This proposed finding is based on EPA's review of monitored air quality data for compliance with the CO NAAQS. Final action on this proposed finding would result in the Anchorage CO nonattainment area being reclassified by operation of law as a serious nonattainment area. The result of such a reclassification would be that the State must submit a new State implementation plan (SIP) providing for attainment of the CO NAAQS by no later than December 31, 2000, the CAA attainment deadline for serious CO areas.

**DATES:** Written comments on this proposal must be received by January 2, 1998.

**ADDRESSES:** Written comment should be addressed to Ms. Montel Livingston, Environmental Protection Agency, Office of Air Quality (OAQ 107), Docket AK 17-1705, 1200 6th Avenue, Seattle, WA 98101. Information supporting this action is available for inspection during normal business hours at the following locations: EPA, Office of Air Quality, 1200 Sixth Avenue, Seattle, Washington 98101, and the Alaska Department of Environmental Conservation (ADEC), 410 Willoughby, Suite 105, Juneau, Alaska 99801-1795.

**FOR FURTHER INFORMATION CONTACT:** John Pavitt, Alaska Air Coordinator, EPA Alaska Operations Office, 907/271-3688.

**SUPPLEMENTARY INFORMATION:****I. Background****A. CAA Requirements and EPA Actions Concerning Designation and Classification**

The CAA Amendments of 1990 were enacted on November 15, 1990. Under Section 107(d)(1)(C) of the CAA, each CO area designated nonattainment prior to enactment of the 1990 Amendments, such as the Anchorage area, was designated nonattainment by operation of law upon enactment of the 1990 Amendments. Under section 186(a) of the CAA, each CO area designated nonattainment under section 107(d) was also classified by operation of law as either "moderate" or "serious" depending on the severity of the area's air quality problem. CO nonattainment
